## Charter Members Honored

### Celebrate Tenth Anniversary Of Vulcan Lions Club

The annual charter night of the Vulcan Lions Club, held in the I.O.O.F. hall Thursday evening, Nov. 4, marked the tenth birthday of the local club. About 150 Lions and their wives were in attendance.

The evening started with a delicious turkey dinner served by the Berrywater FWUA, following which Stuart Campbell led a sing-song, accompanied by Elmer Kumlín at the piano.

A very impressive service was then conducted by Lion President Bill Richardson, when the 12 remaining charter members of the Vulcan club were honored as "Charter Monarchs," each receiving a charter monarch pin and award.

In the absence of Lions International Director Stan Scales, who was ill in hospital, the pin and award were presented to Mrs. Scales on behalf of her husband. Other charter members honored were Fred Anderson, Albert Collier, Budd Andrews, Glen Dahl, Merv McIntyre, Boyd McKay, John Mitchell, Charles Northcott, Clarence Robinson, Clay Snow and Ross Walker.

Lion District Governor Stuart Adams of Calgary made his official visit to the club and was the guest speaker of the evening. He related various experiences of different clubs in the district, showing their accomplishments and how the high ideals of Lionism were being furthered. "Lionism is one of the greatest forces for peace in the world today," the speaker said.

A lively and enjoyable program was presented, with Lion Martin Gottenberg as chairman. Entertainment consisted of two songs by the "Swede from Norway" in the person of Charlie Northcott, a couple of games, a story by Jean Moyer, a farcical skit of someone's idea of how a Lionettes meeting was conducted, a piano duet by "Mesdames" Stuart Campbell and Doug Paris, a vocal solo by Elmer Kumlín, a story by George Richardson and two songs in dialect by Earl Erickson.

The evening concluded with a dance which featured several novelty numbers.

## SERVICE BOARD NOTES

H. S. Burns, Field Supervisor

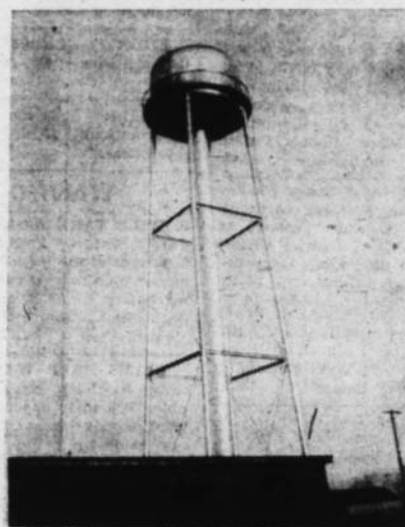

The idea of applying liquid ammonia to the soil as a fertilizer is not new, but we believe it is new as far as this area is concerned.

Very recently, Gordon Clayton of the Vulcan district and Everett Herman of the Milo district, to mention two, have in co-operation with the Oliver Chemical Co. of Lethbridge, each applied this anhydrous ammonia to several acres of wheatland. This is done by hauling the pressure tank of ammonia behind the deep tillage implement and releasing it through separate hose connections, one to each blade, where it is released deep in the soil and buried.

This new method of applying fertilizer to our soils will be watched with interest, and as time progresses we will gain more knowledge as to increased yields, costs, etc., as it applies to our own locality.

Mr. and Mrs. Stan Cramton of Edmonton spent the weekend at the Roy McIntyre home. On their return to Edmonton they were accompanied by Mr. Cramton's sister, Mrs. Carrie McIntyre, who will spend a short visit with them.

## New Vulcan Landmark

A new landmark, visible for many miles, has risen in Vulcan in the form of the water tower pictured above, which was recently completed and is now in use.

Erected for the primary purpose of providing and assuring adequate and equalized pressure in the town's water system the tower also gives an approximate 24-hour reserve supply of water in case of electric power failure. For use in emergencies, too, one well has a stand-by gasoline-powered pumping unit.

Water is supplied to the town system by three wells, drawing water from three different levels. The water supply has always been adequate but the well-head pressure tanks have, at times, been unable to meet periods of peak demand. The new tower is designed to overcome this difficulty.

The tower is 120 feet in height and has a capacity of 50,000 gallons. Its total cost was \$47,800. Contractors and erectors were Horton Steel Works of Fort Erie, Ont. with erection work supervised by H. W. Brown & Co. of Lethbridge, the Town of Vulcan engineers.

Concrete piers, supporting the tower were put down to bedrock, with Norby Construction of Claresholm doing all cement work.

## "Open Forum on Oil" To Be Presented in Vulcan

The Canadian Petroleum Association's fall series of "Open Forums on Oil" gets underway next week and will be presented at Vulcan on Friday, Nov. 19, in the I.O.O.F. Hall at 8 p.m.

The forum is being presented locally through the co-operation of the Canadian Petroleum Association and the Vulcan District Board of Trade and is for the purpose of giving rural and urban residents clear and correct information regarding the petroleum and natural gas industry.

Other towns to be visited during the first week are Raymond and Fort Macleod. Further tours will take the panel speakers into the northern sections of Alberta, then into Saskatchewan, Manitoba and possibly British Columbia. The main feature of the forums, which the general public is invited to attend, is the question period following four brief talks by the panel speakers.

At the forum to be held in Vulcan on Nov. 19, panel speakers will be as follows:

Aubrey Kerr, Chief Geologist, Oilwell Operators Ltd., speaking on "Exploration."

Bob Galbraith, Assistant Chief Lendman, Texaco Exploration Co., speaking on "Land Leasing, Mineral and Surface Rights."

Floyd Auring, Chief Petroleum Engineer, Canadian Gulf Oil Co., speaking on "Drilling, Production and Conservation."

Stu King, Calgary, General Manager, Merrill Petroleum Ltd., who will give a "Progress Report."

Chairman of the forum will be Charles Fulton, vice-president of the Vulcan District Board of Trade and moderator will be Larry Iverson, Field Representative for Imperial Oil Ltd.

Considerable emphasis will be placed on the question period, when questions from the floor regarding the industry are directed to the various panel speakers.

Coffee and doughnuts will be served by the Reid Hill W.I. following the forum. Admission and refreshments are free and all interested persons are invited to attend.

Eugene Kush was a Calgary visitor on Monday.

### Plan Re-organization Meeting Of Vulcan 4-H Grain Club

A reorganization meeting of the Vulcan 4-H Grain Club will be held in the Legion Hall, Monday, Nov. 15, at 8 p.m. This is the annual meeting and members will plan the 1955 program and discuss activities and club projects for the 1954-55 winter season.

The 4-H Grain Club is sponsored locally by the Vulcan Lions Club and operates with the assistance of the Alberta Wheat Pool, provincial sponsor of wheat clubs. It is under the direction of the Junior Farm and Home Clubs, an extension service of the Alberta Department of Agriculture. The club is under the jurisdiction of the Canadian 4-H Council on Boys' and Girls' Club Work and is thus eligible for Dominion-wide judging and grain competition. The club is under the immediate supervision of Hugh Michael, District Agriculturist, who will be present on Monday evening to address the meeting and assist the re-organization.

The local club wishes to expand and welcomes new members. Any farm boy or girl, age 12 to 22 years inclusive, is eligible to join. The initial membership fee is \$5.00 and for this the Alberta Wheat Pool provides four bushels of registered seed wheat of the variety which the club is growing.

The primary objectives of the early agricultural clubs were the improvement of livestock and of cereal and forage crops of the province. Expansion of the clubs brought about a new trend of thought concerning the objectives of the clubs. The old idea of the beef animal or the plot of grain

### REMEMBRANCE DAY, NOV. 11

"But each one, man by man, has won imperishable praise, each has gained a glorious grave — not that sepulchre of each wherein they lie, but the living tomb of everlasting remembrance wherein their glory is enshrined; remembrance that will live on the lips, that will blossom in the deeds of their countrymen the world over. For the whole earth is the sepulchre of heroes; monuments may rise and tablets be set up to them in their own land, but on far-off shores there is an abiding memorial that no pen or chisel has traced; it is graven, not on stone or brass, but on the living heart of humanity. Take those, men, then, for your ensamples. Like them, remember that prosperity can be only for the free, that freedom is the sure of those alone who have the courage to defend it."

—From the oration of Pericles in praise of the fallen heroes of Athens.

## November 22 is Roundup Day!

The co-operation of Alberta farmers will determine the success of this very important Farmers' Union membership drive. The issue is squarely up to the farmers to take this opportunity to build a strong Farmers' Union.

U.F.A. Co-op organized by farmers to service farmers in the farm supply field, is keenly interested in the development of a strong Farmers' organization. To get a fair deal for agriculture it is essential to have a farm organization with a membership representing the majority of the Farmers in Alberta.

U.F.A. Co-op strongly urges all its members to play a part in Roundup Day. Join the Farmers' Union of Alberta. Get your neighbors to join.

## Who's brightening your future these 4 ways?

1 Some people are helping to bring your community a new shopping centre, highway, school, power plant or other useful projects. Who are they? Life insurance policyholders! Money from the premiums they pay is invested for them in ways that help finance improvements like these.

2 A longer, healthier life may be yours, thanks in part to life insurance policyholders. Life insurance companies contribute funds to medical research studies designed to free Canadians from the threat of many dread diseases.

3 Everybody shares in the prosperity which expanding industries bring to a community. Some industry in your community may have built a new plant and employed more workers because life insurance companies invested money in it on behalf of their policyholders.

4 Some day—perhaps soon—you may want a new home. If so, you may find yourself living happily in one of the thousands of new houses which have been built from coast to coast with the aid of money invested for policyholders by life insurance companies.

So, if you are a life insurance policyholder, remember—while you're providing security for your family and yourself, you're also helping to make Canada a better land to live in!

P.S. From your life insurance man  
"Invested life insurance dollars earn interest that makes it possible for you and your family to enjoy the benefits of life insurance at such low cost. If you have any questions about how to make life insurance fit your own special needs, give me a call. I'll be glad to help you!"

**WHAT DOES PUBLIC WELFARE DO IN ALBERTA**

The following is a summary of what may be regarded as pension plans for certain categories of Alberta citizens:

**OLD AGE ASSISTANCE**

Under an Agreement with the Government of Canada the Province has, since 1st January 1952, been paying assistance up to \$40.00 a month under a means test to persons in the 65-89 age group who have resided in Canada for twenty years or its equivalent.

Fifty percent of the assistance paid may be recovered from the Federal Government.

**BLIND PERSONS' ALLOWANCES**

Pensions to the blind had for several years been paid under the former Old Age Pension Act. On 1st January 1952 a special Blind Persons' Allowances Act came into effect and, under an Agreement with the Government of Canada, the Province continued to pay an allowance up to \$40.00 a month under a means test to blind persons who had attained the age of twenty-one years and had resided in Canada for ten years or its equivalent.

Seventy-five percent of the allowance may be recovered from the Federal Government.

**WIDOWS' PENSIONS**

Since 1st April 1952 the Province, at its entire expense, has been paying a pension up to \$40.00 a month under a means test to widows of the 60-64 age group who had resided in the Province for the greater portion of the three years prior to the date of application and had resided in Canada for a period of fifteen years or its equivalent prior to the date the age of sixty years was attained.

**DISABLED PERSONS' PENSIONS**

Since 1st June, 1953 the Province, at its entire expense, has been paying a pension up to \$40.00 a month under a means test to disabled persons who have attained the age of twenty-one years and who have resided in Alberta for the ten years immediately preceding the date of the application.

**Supplementary Allowances**  
An allowance up to \$15.00 a month is payable under a means test to Alberta residents in receipt of Old Age Security, Old Age Assistance and Blind Persons' Allowances.

**MOTHERS' ALLOWANCES**

These allowances have been paid in Alberta since 1919 to any needy widow with dependent children according to the schedules in effect which vary from \$50.00 a month to \$145.00 a month. A special allowance up to \$10.00 a month may, in addition, be paid in cases where the need is apparent.

The municipality in which the widow has acquired residence assumes twenty percent of the cost of the regular allowance. The Province paying the balance in addition to the special allowance. This allowance is payable until the child reaches the age of sixteen years or of eighteen years if attending school and making satisfactory progress.

**HOSPITALIZATION AND TREATMENT SERVICES**

The Province, at its own expense, provides certain hospitalization and treatment services to Alberta residents who are in receipt of Old Age Assistance, Mothers' Allowances, Widow's Pension or Supplementary Allowance. This is also available to recipients of Old Age Security under a means test.

The Province pays the entire cost of the administration of the foregoing services.

## TELEVISION ANTENNAS

The installation of television antenna supporting structures adjacent to overhead power lines constitutes a serious accident and fire hazard. If the structure contacts the power line either when it is being erected or later under storm conditions, the full voltage of the power line will be impressed on the structure and antenna. Fatal accidents and fires have been caused by such contacts.

Persons erecting television antennas should wherever possible maintain sufficient clearances from the power lines to ensure that no contact will be made if the antenna structure falls. It is recommended that the distance from the power line be six feet greater than the total height of the structure. Where such clearances cannot be obtained the structure must be securely guyed away from the power line. The company owning the power line should be notified when the installation is being made so they may have a representative present to temporarily disconnect the line, if necessary.

Details of safe construction standards for Domestic antennas exceeding fifteen feet in height have been compiled by the Canadian Standards Association under Specification C22.4 No. 112. These Specifications are available from the Canadian Standards Association, National Research Building, Ottawa, at a cost of 75c per copy.

The minimum requirements for the installation of television antennas and lead in cables, together with the protective grounding required are contained in Section 54 of the Canadian Electrical Code, Part 1, Sixth Edition, which has been adopted under the Electrical Protection Act of Alberta.

### In Flanders Fields

In Flanders Fields the poppies blow  
Between the crosses row on row.  
That mark our place, and in the sky  
The larks, still bravely singing, fly,  
Scarce heard amid the guns below.

We are the dead. Short days ago  
We lived, felt dawn, saw sunset glow.  
Loved and were loved, and now we lie  
In Flanders Fields.

Take up our quarrel with the foe,  
To you, from failing hands, we throw  
The torch, be yours to hold it high.  
If ye break faith with us who die  
We shall not sleep, though poppies grow,
